Marketing and
Regulatory
Programs

This letter is being issued to clarify the United States Department of Agriculture (USDA) policy with regard to phytosanitary export certification of processed products.

Animal and
Plant Health
Inspection
Service

USDA, Plant Protection and Quarantine (PPQ), Animal and Plant Health Inspection Service (APHIS) provides phytosanitary inspection and certification for plants and unprocessed plant products for export (PPQ Form 577) and re-export (PPQ Form 579). These functions are performed according to regulations set forth in Title 7, Code of Federal Regulations part 353- Phytosanitary Export Certification, and in close conformity with the Articles of the International Plant Protection Convention administered by the Food and Agriculture Organization of the United Nations.

Plant Protection and
Quarantine

Field Operations-
Fort Collins, CO

2150 Centre Ave.
Bldg B-3E10
Fort Collins, CO
80526

Plant products considered to have been processed or manufactured to the extent that there is negligible risk of harboring injurious plant pests are not eligible for Federal phytosanitary certification.
